

Mimecast Email Security, Cloud Integrated

*World-class email security. Optimized M365 protections.
Effortless deployment.*

Stop email attacks in their tracks

Phishing, ransomware, credential harvesting, and spam are just some of the email-based cyber threats that you need to defend against. More than 90% of cyberattacks start with email, and many are designed to evade Microsoft's defenses. Optimize M365 protection in minutes with AI-powered detection from Mimecast — the leader in email security for 20 years.

Mimecast + M365 = unparalleled email protection

Mimecast Email Security, Cloud Integrated is an Integrated Cloud Email Security solution that enhances and augments M365's email security protections, layering on AI-powered, best-in-class detection capabilities to block the most sophisticated email attacks. You get a solution with simplified administration that's optimized out of the box. Your organization gets world-class protection for the top attack vector — email.
